

Worksheet A5

Do this with Lesson 7.

Put all completed work in your folder.

- This chart shows the materials you have been studying. They are listed on the vertical axis. Different parts of a house are listed on the horizontal axis. Put an X in the boxes which show where the materials are used in your house.

door	floor	ceiling	wall (interior)	wall (exterior)	shelves	windows	window sill	fireplace	radiator	sink	roof	rainwater pipe	drain	gutter	skylight	steps	
																	wood
																	glass
																	brick
																	plastic
																	stone
																	marble
																	tile
																	steel
																	rubber
																	aluminium
																	slate
																	concrete
																	plaster
																	roofing felt
																	mineral wool
																	iron
																	copper
																	concrete block

- Write a descriptive paragraph about *each* of these concepts: "How I think it would feel to live in a house made of glass... wood... aluminium."

Scrapbook

Start a new section in your Scrapbook entitled **Building Materials**.

1. Make some crayon rubbings to highlight the texture of building materials used inside and outside your house — brick, stone, tile, wood etc. Add these to your Scrapbook with the other information you have collected on your house. Label each rubbing, stating what it is and where you found the material.
2. Find images or collect rubbings of materials which were not used in the construction of your house.

or

Collect images of houses constructed with different types of building materials.

Vocabulary File

Add new words and definitions to your file.
