

Worksheet B1

Do this with Lesson 1.

Put all completed work in your folder.

The chart on the next page lists a number of building types.

1. In the left-hand column, tick each building type found in your own community.
2. Now categorise all the buildings you ticked in Question 1. Put a tick in the box to indicate whether the building is Residential, Commercial, Industrial, Institutional or Recreational. These examples will help you.

Examples

cottage = residential

shop = commercial

factory = industrial

school = institutional

cinema = recreational

railway station = transport

3. Use a marker or coloured pencil to highlight the buildings which you think deserve to be treated as special.

Homework

1. Finish your memory drawings if you weren't able to complete them in class.
2. Then, before the next class, have a closer look at the buildings you drew from memory. If you have omitted any important details, correct the drawing or make a new one. List the range of materials used in their construction and decoration, as well as the range of textures and colours.

Scrapbook

Study Information Sheet 1 "Scrapbook Instructions". Begin your scrapbook by dedicating a section to **Ordinary Buildings and Special Buildings**. Collect images from magazines, postcards, newspapers, brochures etc. Label each building. Write a short note about each one.

Vocabulary File

Start your Vocabulary File. List any new words and their definitions in your notebook.

In my community	Residential	Commercial	Industrial	Institutional	Recreational	Transport
						airport
						amusement park
						apartment block
						arcade — amusement
						arcade — shopping
						art gallery
						B&B
						bakery
						bank
						bungalow
						café/coffee shop
